## SUMMARY

Software developer with 6+ years of experience in web and mobile application development. Highly motivated professional with strong initiative, ability to adapt to different environments and always seeking to acquire new skills.

## AREAS OF EXPERTISE

ReactJS | React Native | NodeJS | TypeScript | NextJS | NestJS | GraphQL | SQL | GIT

## PROFESSIONAL EXPERIENCE

Full Stack Software Developer | [Sioux Digital 1:1](#) | Brazil

07/2021 - Present

As a skilled full-stack developer, I work with technologies such as ReactJS, NextJS, NodeJS, NestJS, and GraphQL to develop web systems for a variety of clients and projects.

In my current role, I played a key role in creating [Mundo Ticket](#), an online ticket sales system, where I was responsible for both front-end and back-end development and worked on the development of the CMS (Content Management System) of the system itself.

Additionally, I have worked on the development of the [PIM](#) app, a platform that incentivizes cinemas to showcase movies produced by **Warner Bros**. The platform comprises an API and a mobile application developed in React Native. The application allows cinema managers to request access to promotional materials and trailers of Warner Bros movies.

Overall, my expertise as a full-stack developer has been instrumental in the success of these projects, where I have implemented effective solutions that meet the clients needs. I am always eager to learn and improve my skills and knowledge to offer even more effective solutions in the future.

**Software Developer** [Touwolf technologies](#). Quito, Ecuador (Remote)

**06/2020 - 06/2021**

Development of a website and two mobile applications for a medical appointment system.
